NAVAL OPERATIONAL MEDICINE INSTITUTE

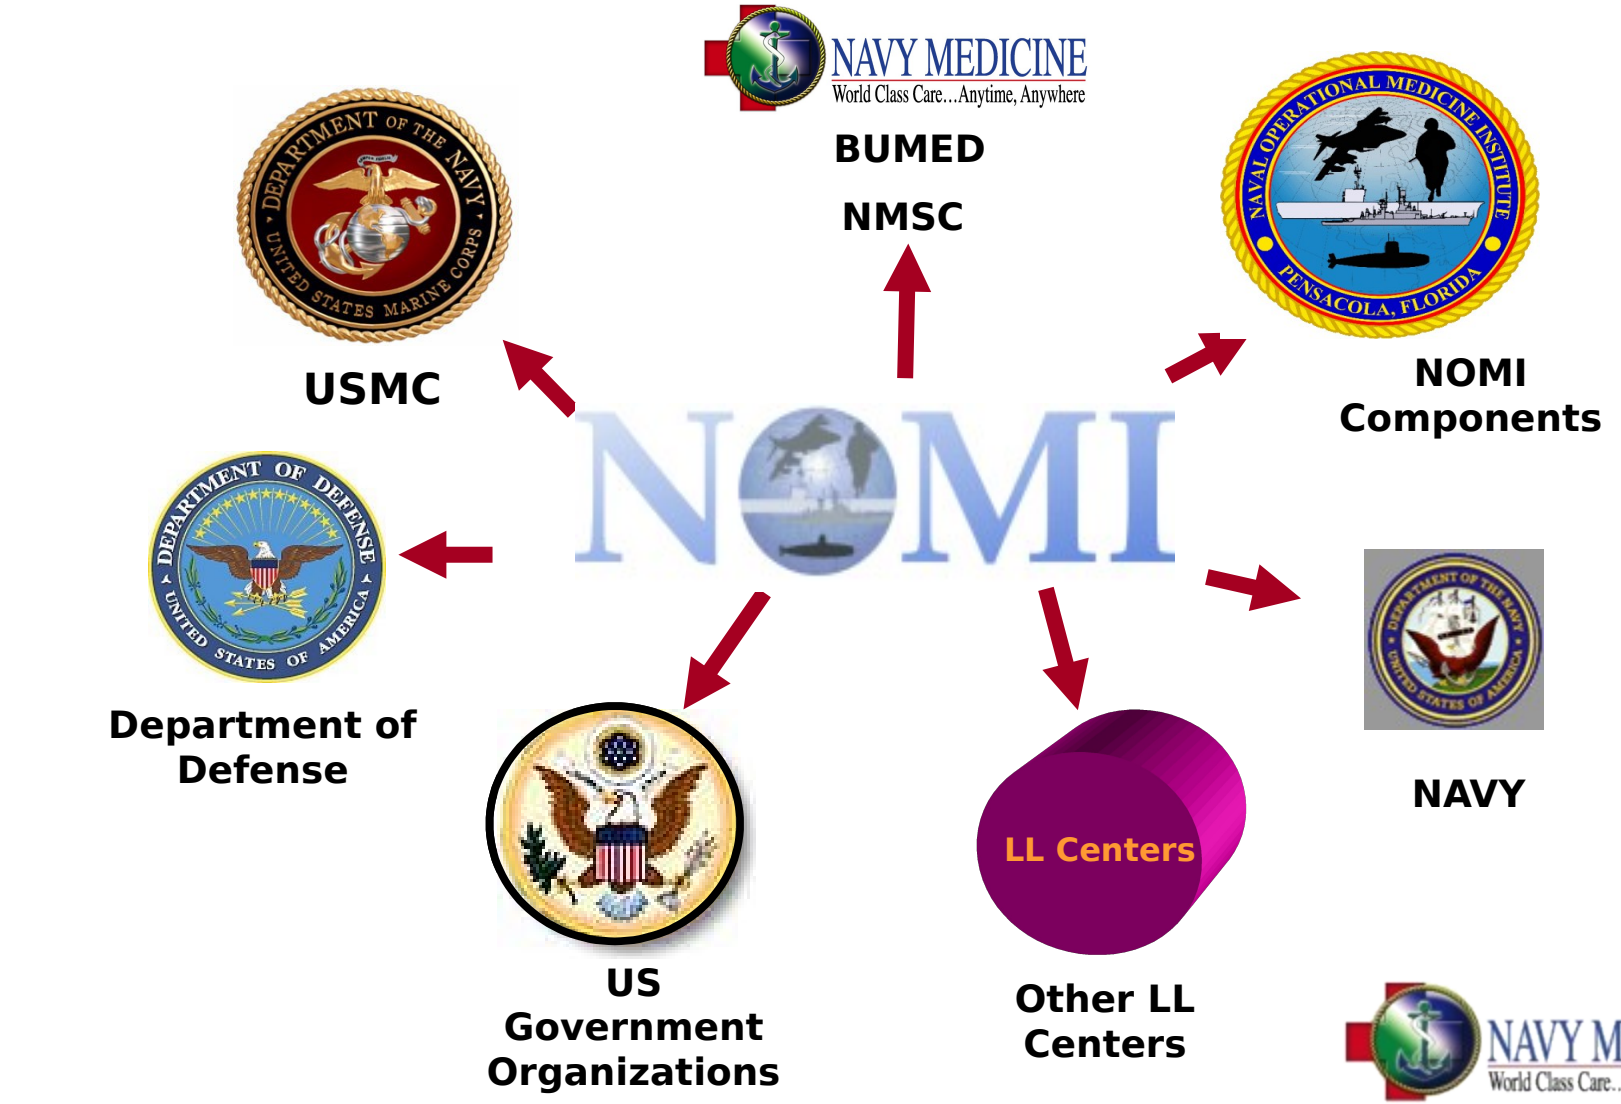
CUSTOMERS



NAVAL OPERATIONAL MEDICINE INSTITUTE

Mission Support to the Fleet

Academics and training:

Aviation Survival: NSTI ~22,500

Operational Medicine: NEMTI, NSOMI, SWMI, NAMI & NUMI ~ 4,900

Aeromedical & LCAC Dispositions:

Consultations: 14,435 Physical Exams: 6,300

Aviation Physical Qualifications:

Waiver applications: 13,512

Aviation Selection Test Battery: 10,699

NAVY MEDICINE
World Class Care…Anytime, Anywhere

Naval Expeditionary Medicine Training Inst

Provides instruction on the assembly, disassembly, establishment of command structure and basic operations of a Navy Fleet Hospital and Expeditionary Medical Facility. Serves as the Navy's field test and evaluation center for Deployable Medical Systems Equipment and Doctrine. Provides support to Fleet Hospital Assist Teams (FHAT) to facilitate world-wide deployment of Fleet Hospitals and Expeditionary Medical Facilities.

ACADEMICS: averaging 2,500 students annually

- **Fleet Hospital Field Training (FHFT) conducted only at FHOTC**
- **Indoctrination and Orientation (I&O) Exportable Training conducted at any Fleet Hospital Command**
- **Operational Readiness Evaluation (ORE)**
- **Expeditionary Medical Facility Pre-Deployment Training**

Naval Survival Training Institute

Provides safe, effective, and relevant aviation survival and human performance training in order to meet CNO and FHI operational requirements.

Eight geographic locations – Aviation Survival Training Centers

Naval Aviation Survival Training Program – 21 different CNO-approved curricula tailored to aircraft and equipment. General categories:

- **Aircrew Indoctrination Training (2 to 7 days depending on course)**
- **Aircrew Refresher Training (Four year re-qualification interval - 2 days)**
- **Non-aircrew Training – e.g. selected passengers (1- 2 days)**
- **Non Aircraft Specific Training – e.g. helo dunker or centrifuge (1 day)**
- **Aerospace Physiology Technician Course (5 weeks)**

TOTAL # STUDENTS ANNUALLY 22,500

Naval Aerospace Medical Institute

Provides technical and professional support, aeromed consultative services, develops and administers medi standards for Naval aviation. Trains medical personne for aeromedical operational requirements.

ACADEMICS: 6 courses averaging 240 students annually (course length 2 weeks to 12 months)

- **Naval Flight Surgeon**
- **Naval Aerospace Physiologist**
- **Naval Aerospace Experimental Psychologist**
- **Naval Aviation Optometrist (AQD)**
- **Aerospace Medicine Technician**
- **Aerospace Medicine Residency**
- **Flight Surgeon Refresher Training**
- **Medical Student Clerkship**

AEROMEDICAL DISPOSITIONS: Consultations-14,400 Physicals-6,200

PHYSICAL QUALIFICATIONS PROGRAM:

Waiver applications- 13,512 Aviation Selection Test Battery-10,699

Naval Undersea Medical Institute

Provides training and technical support in Undersea Medicine and Radiation Health.

ACADEMICS: 8 courses averaging 130 students annually
(course length 4 days to 58 weeks)

- **Undersea Medical Officer Candidate Course**
- **Radiation Health Officer Course**
- **Sub Force Independent Duty Corpsman School**
- **Radiation Health Indoctrination Course**
- **Radiation Health Technician "C" School**
- **Independent Duty Corpsman Refresher Training**
- **Surface to Submarine IDC Conversion Course**
- **Emergency Medical Assistance Team Training**

Surface Warfare Medicine Institu

Provides global medical support, training and consu for Surface Forces on all issues regarding afloat op Coordinates and performs operational readiness tra LCAC Medical Screening, reference publications, course execution and curriculum revision.

ACADEMICS: 7 courses averaging 737 students annually (course length 2 days to 4 weeks)

- **CATF Surgeon Course**
- **SWMOIC**
- **CRTS Medical Augmentation Program**
- **Medical Regulating Course**
- **SWMDOIC**
- **Operational Medicine Symposia**
- **MMHAC**

Landing Craft Air Cushion Physical Qualifications Program:

Applicant Physicals processed	**112**
Consultations	**35**

Naval Special Operations Medical Institute

**The Naval Special Operations Medical Institute (NS
the Naval Detachment within the Army Joint Spec
Operations Medical Training Center (JSOMTC) loca
in FT Bragg, NC. JSOMTC is the sole source of medi
training for SOF medics, techs, and corpsman
under U.S. Special Operations Command (USSOCOM).
The courses at JSOMTC are considered quota
Army/Navy courses, consolidated within the Special Operations
Community.**

ACADEMICS: 3 courses averaging 1392 students annually

- **Navy: Special Operations Combat Medic**
- **Navy: The Special Operations Independent Duty Corpsman**
- **Army/Navy: The Special Operations Combat Medical Skills Sustainment.**

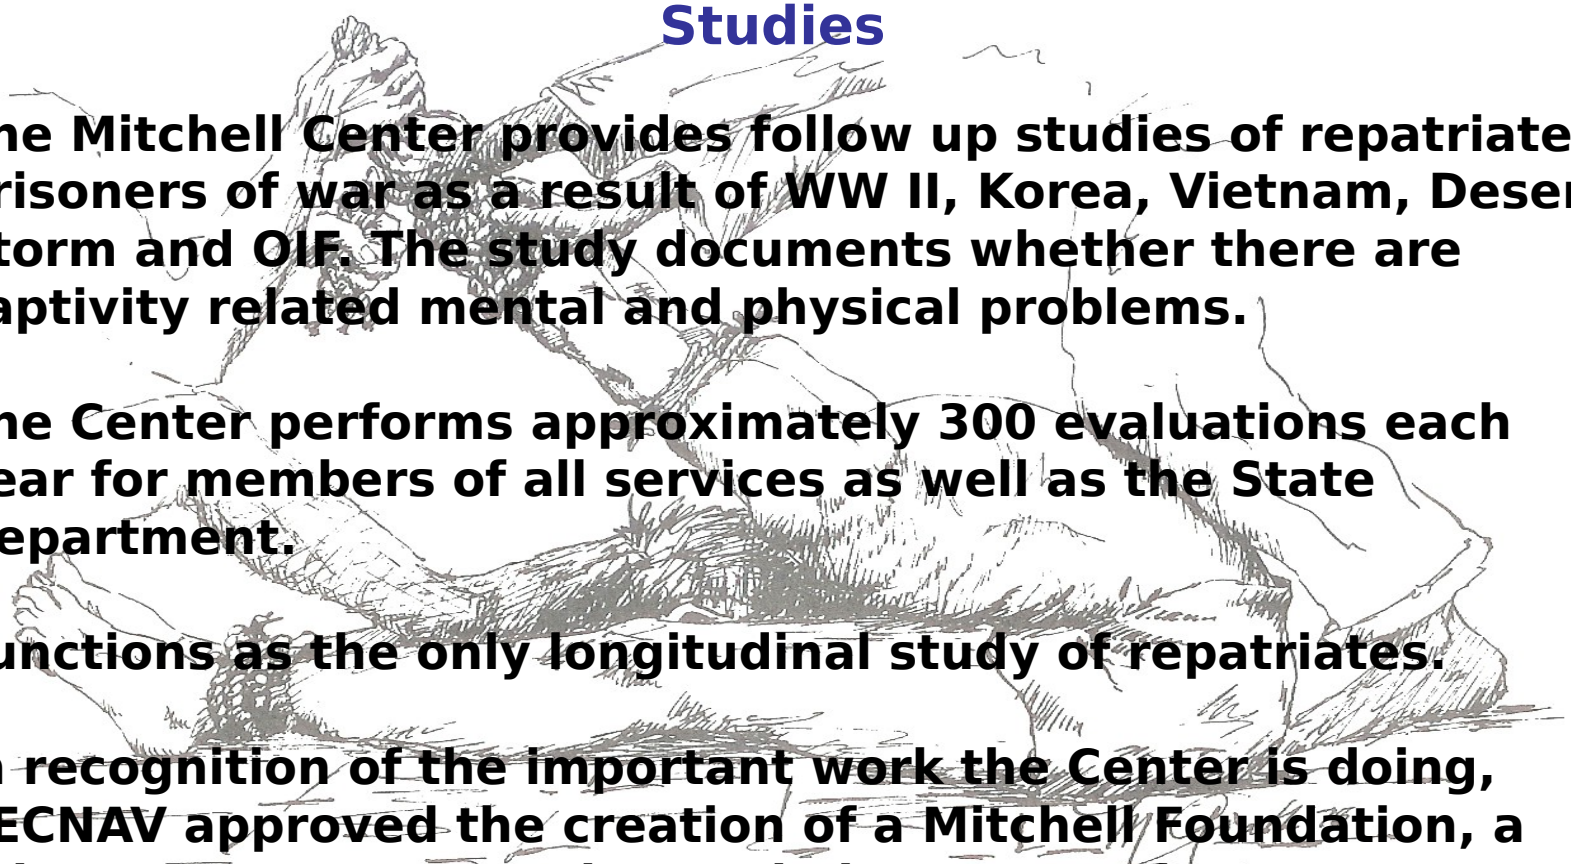
R. E. Mitchell Center for Repatriated Prisoner of War Studies



The Mitchell Center provides follow up studies of repatriated prisoners of war as a result of WW II, Korea, Vietnam, Desert Storm and OIF. The study documents whether there are captivity related mental and physical problems.

The Center performs approximately 300 evaluations each year for members of all services as well as the State Department.

Functions as the only longitudinal study of repatriates.

In recognition of the important work the Center is doing, SECNAV approved the creation of a Mitchell Foundation, a private 501C3 corporation, to help support the Center.

Naval Operational Medical Lessons Learned Center

- Collects, analyzes, manages and disseminates knowledge gained through fleet and operational experiences, exercises, emerging issues, trends, and supporting activities in order to enable medical support elements to achieve higher levels of performance, by providing information in support of the war fighter.
- Designated as a Navy Warfare Center of Excellence
  - -General Admin message from CNO/290027Z JAN 2004,
  - -CFFC message 072251Z APR 2005
  - -NTTP 1-01, APR 2005
- Aligned with Navy Lesson Learned System through NWDC
- Collaborates with USMC, USA, and AF LL centers
- Over 2,000 observations, lessons and reports housed within the Consolidated Data Repository and lessons management system

Tactical Combat Casualty Care

Designation as the TCCC Committee Chair by Ms. Ellen P. Embrey, Deputy Assistant Secretary of Defense for Force Health Protection and Readiness and Director, Deployment Health Support

NOMI directed by NMETC to coordinate Committee on Tactical Combat Casualty Care

The Committee drafts and publishes the guidelines for Tactical Combat Casualty Care:

- **These guidelines are used to train combat medics, combat life savers, and others to provide pre-hospital trauma care in tactical settings.**

En route Care

- End State – to meet the Marine Corps requirements of training medical personnel so to provide medical care to patients in a wartime environment
- T/O for ERC team – consist of a Critical Care nurse and Corpsman.
- Training – focuses on rotary wing tactical evacuation of critically injured patients
- OCT 03 - MCCDC requested BUMED to provide training for a helo-based En Route Care System; NOMI tasked to develop/coordinate ERC course
- JUL 05 – ERC curriculum finalized with MCCDC to include Water Survival (N9/N7), Army's Joint En Route Care (JERC) course (nurses only), Flight Medic Course (corpsmen only) and the 26hr Naval En Route Care course (NERC).
- SEP06 – Curriculum to be forwarded to NMETC.
- Course vitals: Jan 05 – present
  - 5 NERC courses taught by NOMI at 1st, 2nd and 3rd MEDBN's
  - 5 JERC courses taught by Army/Navy
  - 1 N9/N7 course taught by NSTI (Standard curriculum for NSTI. Course ongoing)
  - Trained – over 150 deployed nurses and corpsmen
  - Corpsmen pipeline – 23.5 days
  - Nurse pipeline – 15.5 days
- Course Improvements with Training Equipment – investigating battery operated simulator manikins to enhance training in rotary aircraft
